Why Infini Works

A trusted, industry-aligned program designed to build real capabilities—not just qualifications.

- Learn what companies actually expect
- Build job-ready skills through real projects
- Start contributing from day one
- Understand project workflows
- Gain Real Industry Exposure & clarity
- Move forward with clear career direction

How You Learn (Not Just Study)

Learn like a professional from day one.

- Practical, job-focused learning
- Hands-on software & tools training
- Real workflows, not classroom theory
- Mentored by industry experts
- Career-focused outcomes
- Confidence & professional growth

The Infini Philosophy - A Different Way to Build Careers

At Infini, we believe careers are built on intent, effort, and real outcomes—not just learning.

We don't believe in shortcuts or empty promises. We focus on practical skills, real-world readiness, and responsible professionals who can perform with confidence.

This philosophy drives everything we do—

how we train, how we mentor, and how we prepare you for real opportunities.

Certification in Construction Planning (CCP)

2.5 Months | Online | Project Planner

About the Program

A live, online program to help you shift from execution to project planning and scheduling roles.

Learn how projects are planned, tracked, and controlled using real tools and expert guidance—while you continue working.

Stop just executing. Start planning and controlling projects.

Is This Program Right for You?

- 2–4 years in execution—ready to move into planning?
- Strong in estimation, work methods & drawing reading?
- Good analytical thinking and problem-solving ability?
- Comfortable with coordination across teams?

✓ If you have the foundation—step into planning roles with confidence.

What You Learn

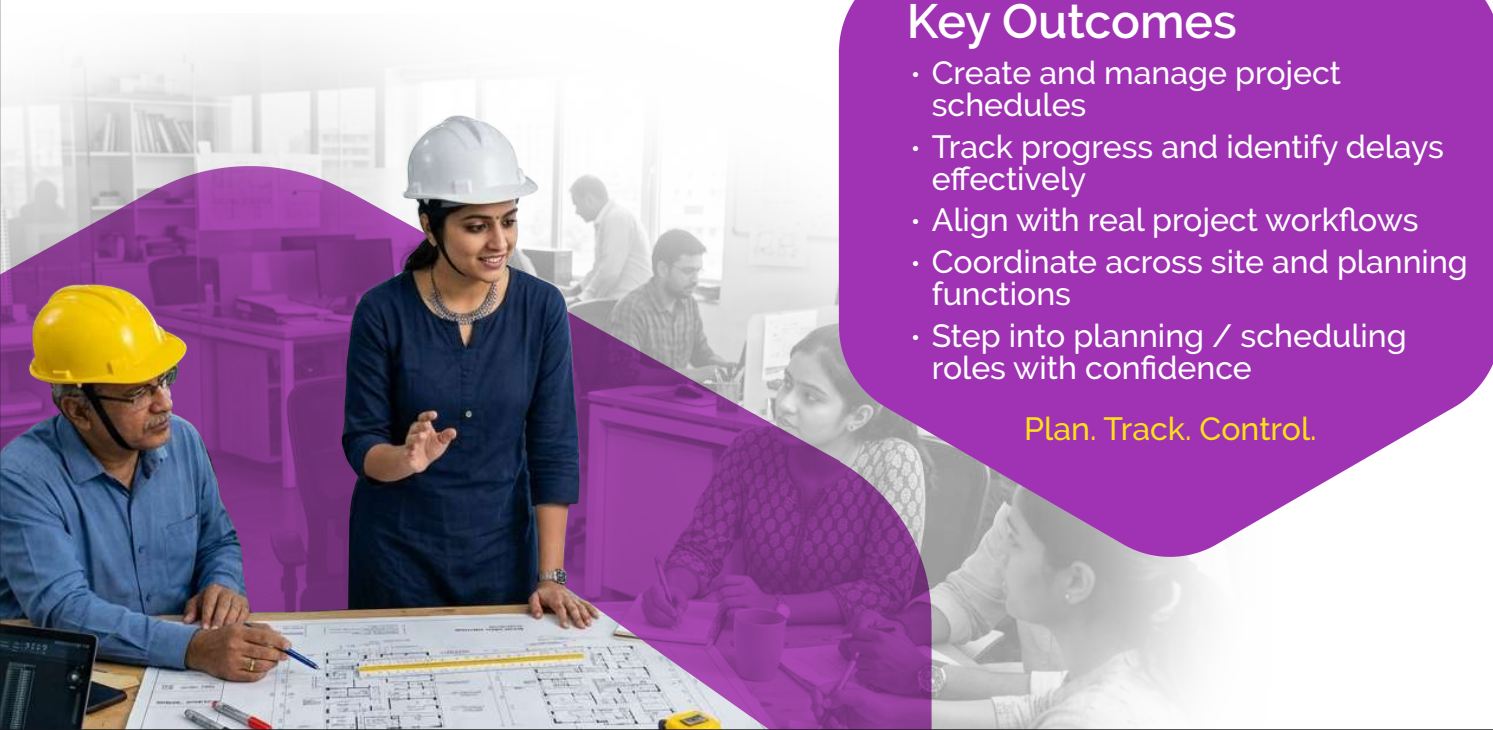

- Fundamentals—WBS, activity logic & sequencing
- Scheduling concepts & critical path method (CPM)
- MS Project / P6 for planning, tracking & reporting
- Basics of resource planning
- Concepts of delays, dependencies & workflows

✓ Monitor. Analyse. Deliver.

Key Outcomes

- Create and manage project schedules
- Track progress and identify delays effectively
- Align with real project workflows
- Coordinate across site and planning functions
- Step into planning / scheduling roles with confidence

Plan. Track. Control.

Program Structure

**Weekend online sessions–
3 hrs every Sunday
(10 sessions)**

**Tool-based learning using
MS Project / P6**

**Live, expert-led
discussions with
practical demonstrations**

**Case-based exercises
to apply learning on
real project scenarios**

Understand.

Plan.

Track.

Career Opportunities

Move into roles such as:

- Planning / Scheduler Assist roles
- Jr Planning Coordinator
- Planning Support / Assistant roles

✓ **Opportunities across contractors, developers, builders**

Eligibility

- Civil Engineers / Diploma Civil, 2-3 yrs of site experience
- Basic understanding of Planning
- Understanding of drawings, estimation, and site workflows
- Familiarity with computers / basic software (MS Excel)

✓ **Analytical and problem-solving ability is essential.**

Why Choose This Course

- Focused on planning & scheduling, no generic coverage
- Built for execution planning transition

- Learn real project workflows
- Hands-on with MS Project / P6

✓ **Shift from execution to planning.**

Take the Next Step

**Stop designing & executing. Start deciding.
Time to move from site to strategy.**

Executive Management Development Program (eMDP)

Project Controls

2.5 Months | Weekend Online |
No Career Break | Live Trainer-Led

About the Program

Designed for experienced professionals to transition into project planning and control roles—without a career break.

Build capabilities to manage complex projects, take on higher responsibilities, and move towards managerial roles.

Is This Program Right for You?

- Experienced—but not growing as expected?
- Ready to move into planning & control roles?
- Want to upgrade without leaving your job?
- Looking to take on projects in a managerial capacity

✓ Step beyond execution—move into roles that drive decisions.

What You Learn

- Planning, scheduling & project controls
- Cost tracking & cash flow monitoring
- Risk, delay & performance analysis (EVM)
- Tools: Primavera / MS Project & AI-enabled tools
- Analyse real project issues—delays, cost overruns

✓ Monitor. Analyse. Control. Deliver.

Key Outcomes

- Strong foundation in managing projects
- Practical insights from real project
- Tools to handle on-site challenges
- Better cash flow planning & recovery scheduling
- Ready for role upgrades and career growth

Build the skills to perform, stand out, and move ahead.

Program Structure

Weekend online sessions
– 3 hrs every Sunday (10 sessions)

Live, expert-led discussions

Interactive problem-solving to
apply solutions on your projects

Discuss. Analyse. Take Control.

Career Opportunities

- Project Planner / Scheduler
- Project Controller
- Cost Control Professional
- PMO / Project Coordinator

Eligibility

- Civil Engineers / Architects, 5–6 yrs of experience
- Background of Design + Execution, & coordination
- Basic understanding of Planning tools (MSP, bar chart)

✓ Opportunities across EPCs, PMCs, & MNCs

Why Choose This Course

- Learn from experts with 25–30 yrs of experience
- Real case discussions you can apply immediately
- Hands-on with advanced tools & practical tips
- Guided mentoring by experienced professionals
- Support to move into higher roles and responsibilities

✓ Not just upskilling – this is a role transition into project controls.

Take the Next Step

Stop designing & executing. Start deciding.
Time to move from site to strategy.
