Why Infini Works

A trusted, industry-aligned program designed to build real capabilities—not just qualifications.

- Learn what companies actually expect
- Build job-ready skills through real projects
- Start contributing from day one
- Understand project workflows
- Gain Real Industry Exposure & clarity
- Move forward with clear career direction

How You Learn (Not Just Study)

Learn like a professional from day one.

- Practical, job-focused learning
- Hands-on software & tools training
- Real workflows, not classroom theory
- Mentored by industry experts
- Career-focused outcomes
- Confidence & professional growth

The Infini Philosophy - A Different Way to Build Careers

At Infini, we believe careers are built on intent, effort, and real outcomes—not just learning.

We don't believe in shortcuts or empty promises. We focus on practical skills, real-world readiness, and responsible professionals who can perform with confidence.

This philosophy drives everything we do—

how we train, how we mentor, and how we prepare you for real opportunities.

Post Graduate Certification in Construction Management (PGC CM)

6 Months | Industry-Led | Weekend Live Role Expansion Program

About the Program

A 6-month, live online program designed for working professionals to strengthen core construction management capabilities.

Build a structured application of estimation, budgeting, quality, planning, scheduling, and tracking—supported by tools like Excel and MS Project—without stepping away from your job.

Designed with industry. Focused on real project understanding.

Is This Program Right for You?

- 3+ years in executing role—but missing structured project understanding?
- Have basic exposure to estimation and project workflows?
- Want to integrate planning, estimation, quality & execution?
- Looking to build multi-functional capabilities and progress towards executive roles?

✓ Move beyond experience—build complete project understanding.

What You Learn

- Project planning & management functions
- Estimation, BOQ & budgeting
- Resource planning & productivity understanding
- Planning Quality (QA-QC)
- MS Project (MSP) for tracking & reporting
- Introduction to project control tools

✓ Understand how construction is planned and managed for efficiency.

Key Outcomes

- Understanding the role of planning in projects
- Improved ability in resource management
- Better control over schedule and cost
- Ability to monitor project performance using MS Project
- Readiness to plan and coordinate construction activities

Build clarity. Improve capability. Grow.

Program Structure

Weekend live online sessions – 4 hrs every Sunday

Excel & MS Project-based application learning

Trainer-led concept building with practical demonstrations

Case-based discussions from real project scenarios

Understand.

Apply.

Improve.

Career Opportunities

Progress into roles such as:

- Planning / Coordination Roles
- Estimation Engineer
- Project Coordinator
- Execution + Planning Hybrid Roles

Eligibility

- Civil Engineers / Architects
- Minimum 3 years of execution or coordination experience
- Basic understanding of construction workflows
- Familiarity with basic tools (Excel preferred)

✓ Opportunities across contractors, developers & PMCs

Why Choose This Course

- Structured learning beyond site-based experience
- Covers core project functions—not just one specialization
- Practical exposure to MS Project and Excel applications
- Designed for working professionals—no career break required

✓ Strengthen your foundation. Expand your role.

Take the Next Step

Stop working only on tasks—start understanding the entire project.
