Why Infini Works

A trusted, industry-aligned program designed to build real capabilities—not just qualifications.

- Learn what companies actually expect
- Build job-ready skills through real projects
- Start contributing from day one
- Understand project workflows
- Gain Real Industry Exposure & clarity
- Move forward with clear career direction

How You Learn (Not Just Study)

Learn like a professional from day one.

- Practical, job-focused learning
- Hands-on software & tools training
- Real workflows, not classroom theory
- Mentored by industry experts
- Career-focused outcomes
- Confidence & professional growth

The Infini Philosophy - A Different Way to Build Careers

At Infini, we believe careers are built on intent, effort, and real outcomes—not just learning.

We don't believe in shortcuts or empty promises. We focus on practical skills, real-world readiness, and responsible professionals who can perform with confidence.

This philosophy drives everything we do—

how we train, how we mentor, and how we prepare you for real opportunities.

Certification in Construction Quality Control (QCC)

2.5 Months | Live Online | Industry-Oriented | Real Site Application

About the Program

To build a strong understanding of construction quality control, including inspections, compliance, and QA/QC processes.

Enable you to draft and monitor standard work methods, apply ISO systems, resolve NCs, manage audit documentation, and improve overall construction quality.

Is This Program Right for You?

- Working in execution but not confident in quality checks?
- Facing frequent rework or poor workmanship issues on-site?
- Planning to shift into QA/QC or quality-focused roles?
- Want to build expertise in testing, inspections, and audits?

✓ **Stop Managing Work.
Start Controlling Quality.**

What You Learn

- QA/QC frameworks, standards, and compliance systems
- Material testing & relevant IS code provisions
- Inspection methods and documentation practices
- Audit processes and quality reporting systems

✓ **No Fluff. Just Real Quality Skills**

Key Outcomes

- Perform quality checks
- Implement QA/QC plans
- Ways to reduce rework losses
- Do testing and inspections
- Conduct quality audits, resolve NCs

From Understanding
Quality → Controlling It

Program Structure

Weekend online sessions – 3 hrs every Sunday

Topic-wise assignments for concept clarity and application

Live, expert-led training with structured QA/QC learning

Case-based discussions on real site quality issues

Inspect.

Control.

Deliver.

Career Opportunities

- QA/QC Engineer
- Site Quality Engineer
- QA/QC Auditor
- Quality Analyst

Eligibility

- Civil Engineers with 2+ years of experience
- Diploma Civil Engineers with 4+ years of experience
- Basic understanding of site execution

✓ **Pathway to QA/QC Manager roles with experience**

Why Choose This Course

- Focused on real site practices, not just theory
- Learn from actual defects, errors, and rework cases
- Covers full QA/QC cycle: materials → execution → audits
- Shift from checking work to controlling quality systems
- Prepares you for real QA/QC roles and growth

✓ **Learn Quality the Way It's Done on Site**

Take the Next Step

Stop compromising on quality-and your growth.
Build expertise that makes you indispensable on-site.
